Asst. prof. Elena Grancharova	**Asst. prof. Zornitsa Mitreva**	**Assistant Tsvetina Paparkova**

Technical Editor - Pre-print - Web Support
Assistant Mariela Stojkova & Assistant Plamen Tomov

Bulgarian Journal of Soil Science is an international open-access, web-based scientific journal dedicated to the publication and discussion of high-quality research in the field of soil sciences. Bulgarian Journal of Soil Science publishes scientific research that contributes to the understanding of soil and its interaction with humans and the entire earth system. The scope of the journal includes all topics relevant to the study of soil science as a discipline. The journal publishes original papers in specific topic sections on global and regional, theoretical and experimental studies concerning the problems of genesis, geography, physics, chemistry, biology, fertility, management, conservation, and remediation of soils.

Author instructions can be found on the official webpage and in the journal.

BULGARIAN JOURNAL OF SOIL SCIENCE®

CONTENTS

VOLUME : 9 **ISSUE : 1** **PAGES : 3 – 141**

1	Influence of Swine Wastes Rates on Selected Soil Physical Properties and Cultivation of Amaranthus in Awka, South East- Nigeria *T.V. Nwosu*	**3 – 13**
2	Soil Loss Estimation Using GIS and Remote Sensing Technique: A Case of Teaching and Research Farm, Kwara State University, Malete *Khadijat Oyebisi Alabi, Isaac Afe Ade , Kabir Adebayo, Zainab Bolarinwa*	**14 – 27**
3	Evaluation of Soils and Climatic Conditions Supporting Groundnut (Arachis hypogaea L.) Production in College of Agronomy Research Farms of Federal University of Agriculture Makurdi Benue State, Nigeria *Emmanuel Amodu Igomu, Makama McGyotwowa Kyat, Simon Onyedikachi Odoemena*	**28 – 41**
4	Role of Year-Round Plant Cover and Agro-Technical Measures on Arable Land for Improvement of Some Water-Physical Parameters of the Eutric Fluvisol *Iliyana Gerasimova, Miladin Nazarkov*	**42 – 57**
5	Influence of Land Use on Spatio-Temporal Variation in Soil Moisture in a Sahel Area of North East Nigeria. *Ibraheem Alhassan, Suleiman Audu*	**58 – 68**
6	Land Suitability Evaluation for Maize Production Among the Soils of Hyuku in Wukari, Taraba State, Nigeria *Adashu Tanko Gani, Jacob Usman*	**69 – 82**
7	Primary Nutrients Status of Three Vermicomposts Produced in a Nigerian Sahel Region *Mahmud Sani, Alhassan Ibraheem, Sufiyanu Sani, Aliyu Abdulkadir, Ibrahim Hassan, Zara Musa,Musab Ibrahim*	**83 – 91**
8	Pesticides and Soil Environment: An Age-Linked Concept. *Suleiman Usman , James O. Jayeoba, Sani Mathew Amana*	**92 – 112**
9	Modelling of Field Capacity from Basic Soil Properties on a Typical Alfisol *K.O. Affinnih, N.B. Anwanane*	**113 - 128**
10	Study of Basaltic Soils Along the Toposequence of Aya River in Ogoja, Cross River State, Nigeria *P.E. Imadojemu, S.N. Obasi*	**129 - 141**
